

Shareholders – How to Register for Electronic Communications

If you are a Travis Perkins shareholder you can elect via the Share Portal at www.travisperkins-shares.com to receive your shareholder communications electronically. If you have not previously registered for the Share Portal you must first:

1. Go to the Share Portal www.travisperkins-shares.com
2. Select 'Register' from the bottom of the log in box.
3. Enter your investor code, postcode and surname. Your investor code can be found on your share certificate and dividend confirmations.
4. You will then be asked to create a username.
5. You will then be asked to choose a memorable word.
6. Finally, you will be required to input your email address and agree to the 'general conditions of use'.
7. You can then choose to receive email notifications (you can change the method of communication at any time), postal notification or printed documents.

You will now be able to access the full range of on-line services.

If you have any questions about shareholder electronic communications, contact our registrar, Link Asset Services. You can find their contact details and further information at:
