Data

Insights

Investing

Harvesting

- Sales growth
- Gross margin improvement
- Operating leverage
- Higher returns

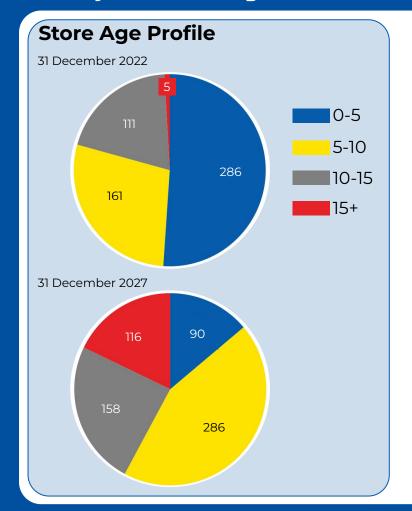

Growth underpinned by proposition improvements

- Increasing maturity of the existing estate brings significant growth
- New stores (from 563* to 650) contribute in line with early maturity curve
- Trade focused proposition improvements reinforce competitive position

Maturity and network growth delivers £1bn revenue

563 branches

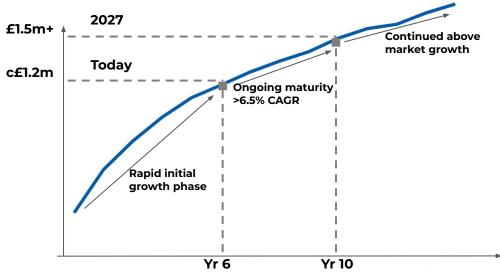

- ~ 6 years old
- ~ £1.2m average revenue

Future

650 branches

- ~10 years old
- ~£1.5m average revenue

Store Performance Progression (actual data)

Sales evolution demonstrated across the country

Examples of maturing stores

	Guildford	Blackpool	Epsom	Hull St Andrews	Colchester Severalls
Age*	12	10	8	6	4
Sales	£1.8m	£1.6m	£1.4m	£1.3m	£1.2m
Sq Ft	4,500	4,100	4,200	4,700	4,600
Contribution**	>25%	>23%	>20%	>20%	~20%

- Store sales and volumes continue to grow over years 5-10 and beyond
- Stores reach full staff complement and discrete costs stabilise to c£300k pa
- Contribution increases as sales grow averaging over 20% at year 6 and increasing from there

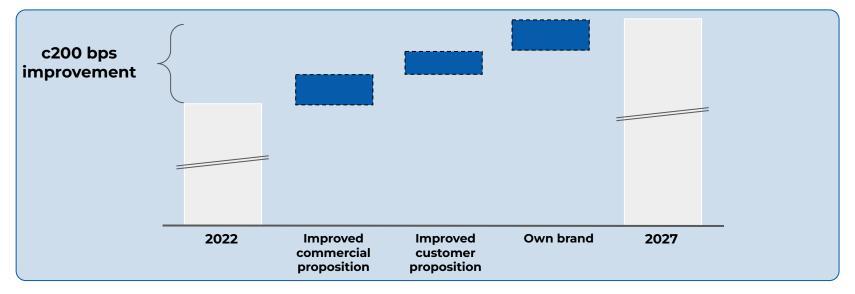

Commercial improvements benefit Gross Margin

Gross margin improvements are underway and will continue to improve by c200 bps by 2027

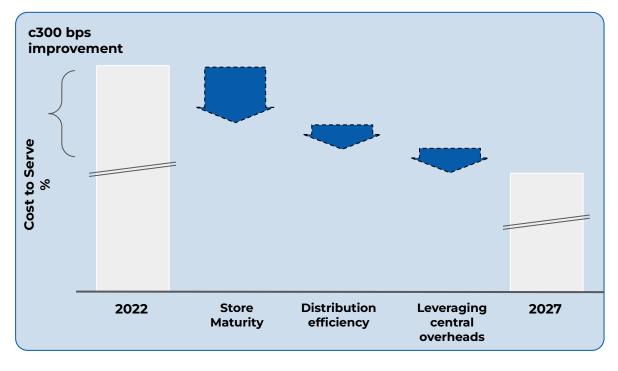

- Improved commercial proposition delivers benefit through negotiation, data, scale and category strategies
- Oustomer proposition brings commercial benefit through improved mix and project selling
- Doubling of own-brand penetration from sub 10% by improved ranging and sourcing to deliver trade credible quality and value

Operational leverage brings CTS improvement

The efficient operating model allows volume increases without significant cost rises. Opex will remain tightly controlled to deliver improvements in cost-to-serve (CTS) of c300 bps

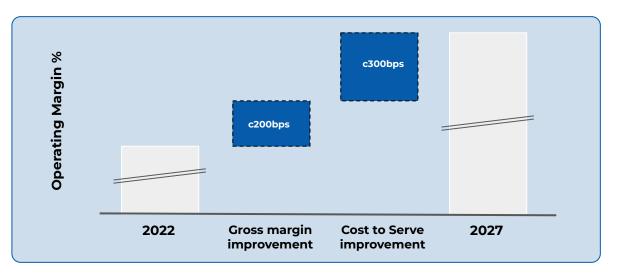

- Leverage of existing store investments (only modest cost increases with additional volume)
- Minimal further investment required

Operating margin will improve to ~8%

8% return delivered through maturity of sites, improving gross margins and overhead efficiencies

- Olear roadmap to operating margins of c8% by 2027
- ◆ Increasing maturity of c50% of store base brings revenue progression
- Oross margin improvements through commercial initiatives and leveraging scale
- Ost to serve improved through tight cost control, distribution efficiencies and fully operational, automated new DC

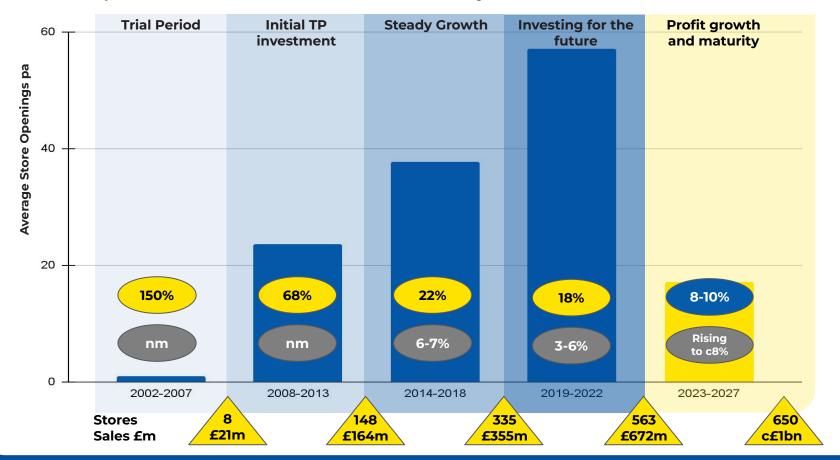

The next phase in context

Av sales growth pa

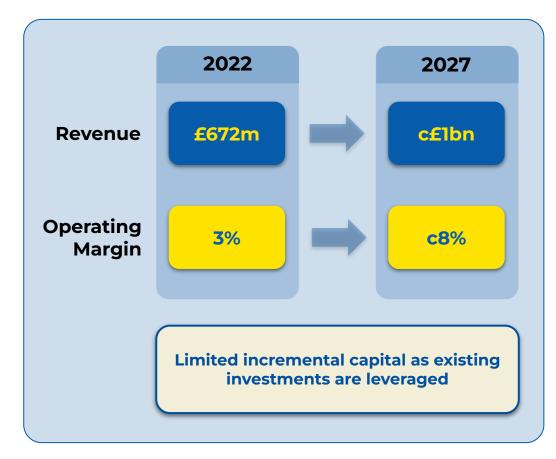

Op margin range

The fifth phase for Toolstation is underway

Significant value upside

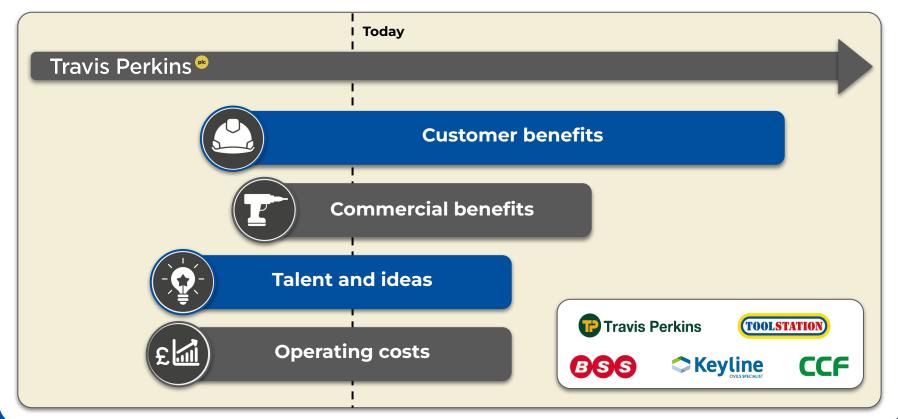

- c4x Operating Profit growth to c£80m
- Increase to 15% ROCE as capital increases limited to new stores post y/e 2023
- Substantial incremental returns from invested capital
