

SUPPLIER COMMITMENTS: GUIDANCE AND FURTHER INFORMATION

# Worker Safety

**‘As a supplier, you commit to protect your workers from dangerous or harmful operations whilst they’re engaged in manufacturing your products.’**

“**Keeping people safe**” is one of the Travis Perkins group’s five cornerstones that underpin our business. We therefore want to work with suppliers who advocate and adopt a culture of safety and wellbeing for workers throughout their supply chains.

- Good practice would include actively supporting a safe place to work by ensuring the guiding principles of Successful Health and Safety Management (HSG 65) are applied.
- For further information on safety, please see the Health and Safety Expectations of Suppliers (Appendix 3) in the Supplier Manual.
