

Net Zero Carbon 2035 Our Buildings Roadmap

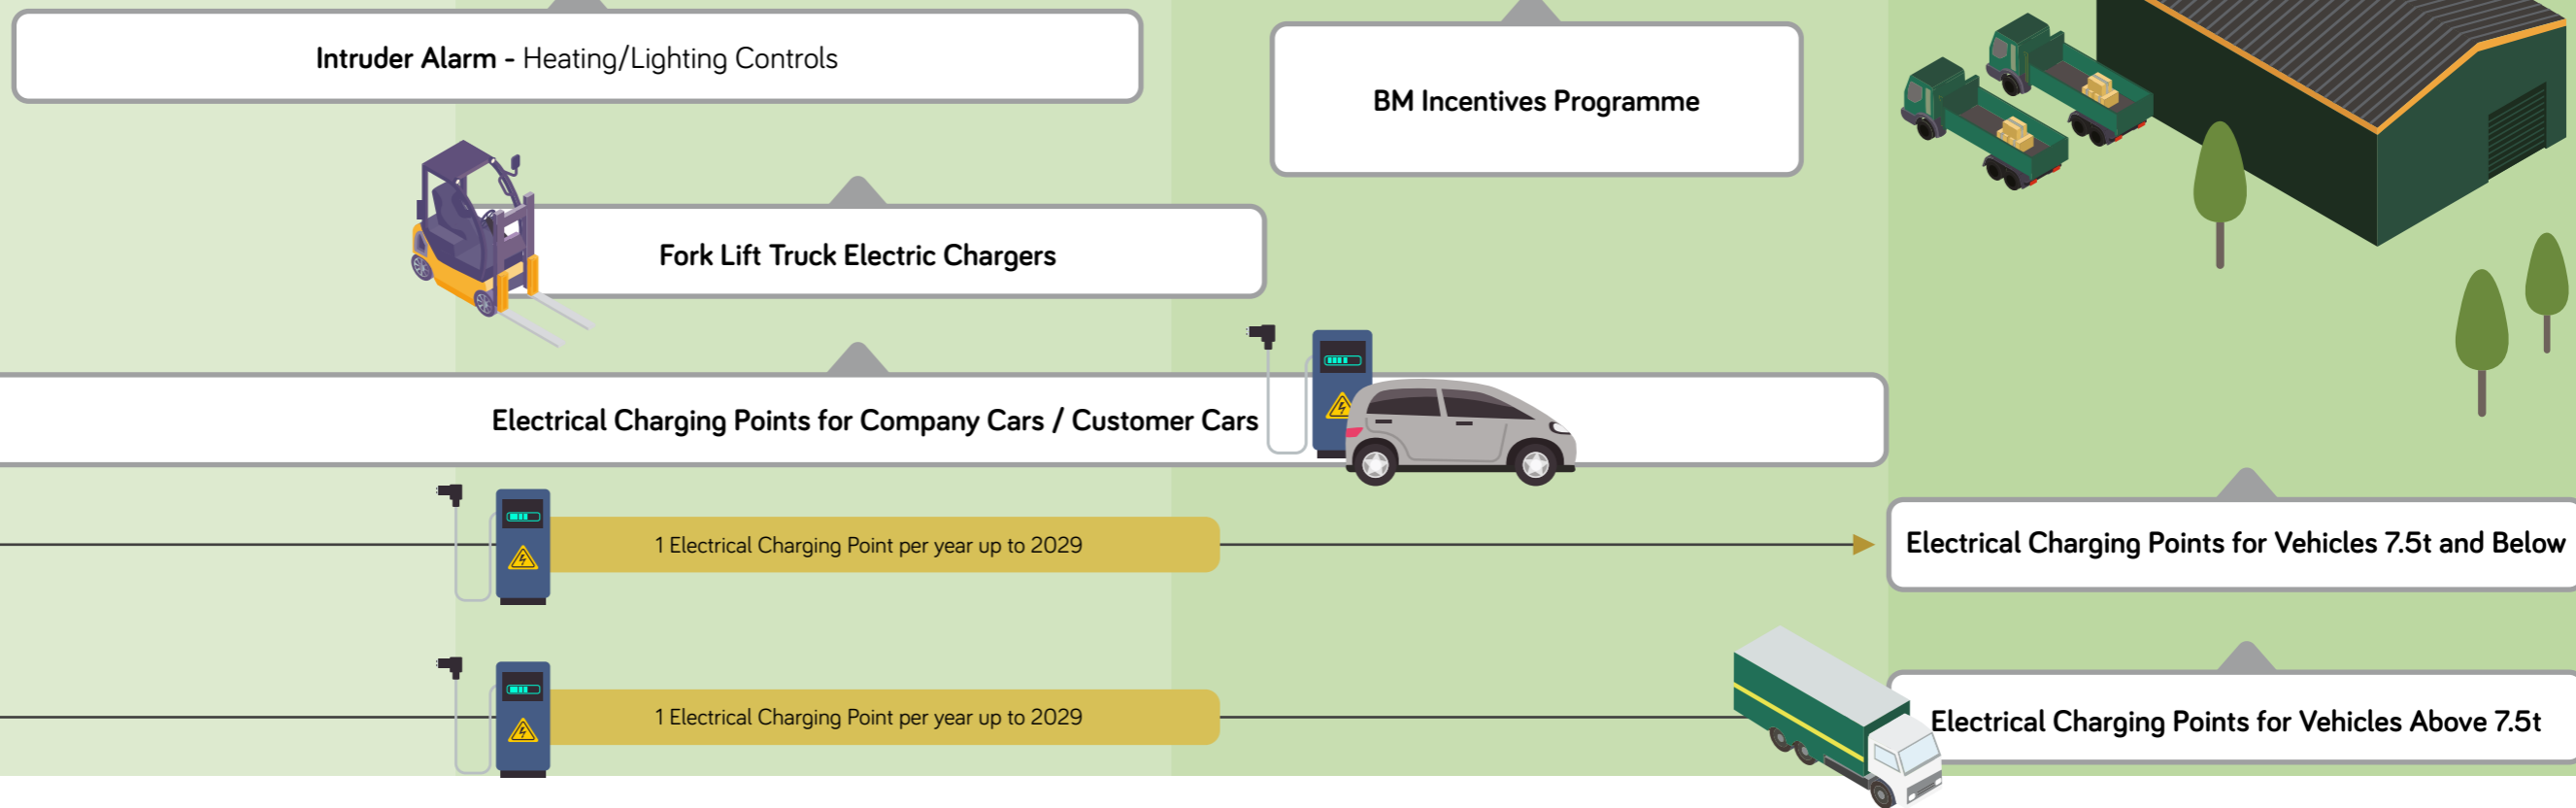

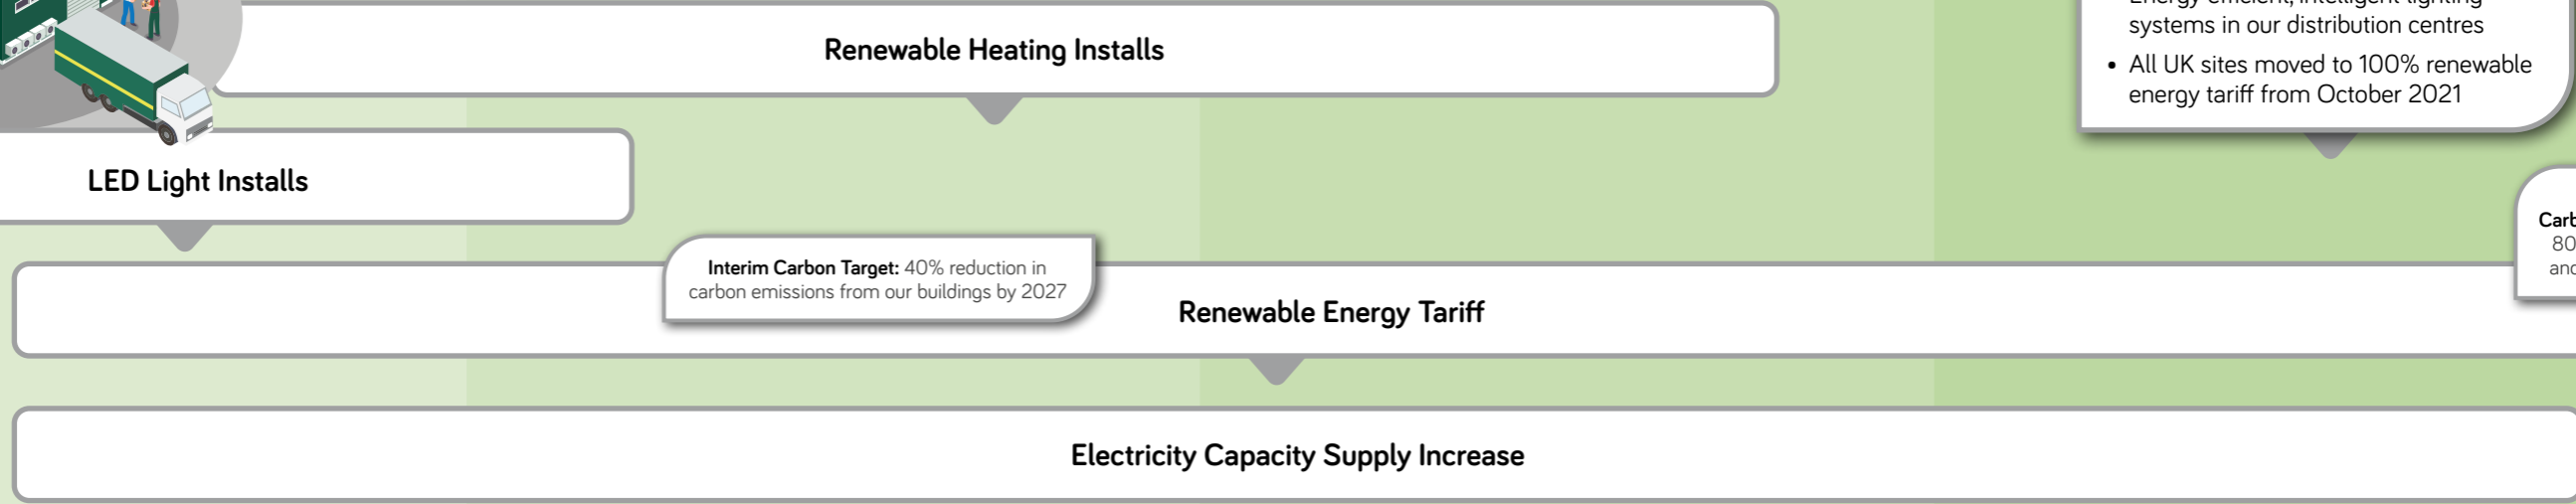

- Key achievements so far:**
- Over 13,000 LEDs have been installed in our sites
 - PV Solar Panels installed at new sites
 - Air Source Heat Pumps installed at our TP Martlesham Heath branch
 - Energy efficient, intelligent lighting systems in our distribution centres
 - All UK sites moved to 100% renewable energy tariff from October 2021

Net Zero Carbon Achieved:
80% reduction and 20% offset

Interim Carbon Target: 40% reduction in carbon emissions from our buildings by 2027

Carbon Footprint: 25,111

TP
Low Carbon Buildings Standard Produced

TP
CAM Templates Includes NZC Statement

TP
Internal NZC Awareness Module Launched

Trial 1 innovative renewable energy system (i.e Wind Panels) on a refit project.
